

INSTALLING THE SOFT CLOSE ADAPTER TO SORTING CARTS LM 69, 70, 71, 77, 78

Packing includes:

- 4 pcs of sunk screws 3,5 x 25
- soft close adapter

Fixing the soft close adapter:

1. The frame and the base must be installed into closet before installing the soft close adapter. After checking the functionality of the sorting cart, separate the fixed frame from the base.
2. You will find the right installing place for the adapter, when you draw the lines according to picture 1.
3. Firstly fix one screw according to picture 2 and check the functionality of the adapter by placing the fixed frame back onto the base.
4. Note! When pulling the frame onto the base at first time, the drawer of the frame must be helped to click behind the section of the adapter (picture 3).
5. Fix the rest of the screws.
